| Project Name  | Project – Inventory Management system for |
|               | retailers                                 |
| Maximum Marks | 2 Marks                                   |

## **Proposed Solution Template:**

Project team shall fill the following information in proposed solution template.

| S.No. | Parameter                                | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| *     | Problem Statement (Problem to be solved) | <ul> <li>The retailers generally facing issues in recording the stocks and its threshold limit available.</li> <li>The retailers doesn't know which product is getting expired and when it is being expired.</li> <li>The retailers couldn't track the availability of all the stocks up-to date.</li> <li>The customers are not satisfied with the retailers store since it doesn't have enough supplements and the deliveries were not made on time.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                          |
| *     | Idea / Solution description              | <ul> <li>This proposed system will have a daily update system whenever a product is sold or it is renewed more.</li> <li>The system will have an alert triggered to indicate both the expired product and soon going to expire products.</li> <li>The product availability is tracked daily and an alert system in again kept on to indicate those products which falls below the threshold limit.</li> <li>All the customers can register their accounts after which they will be given a login credentials which they can use whenever they feel like buying the stocks.</li> <li>The application allows the customers to know all the present time available stocks and also when the new stock will be available on the store for them to buy.</li> <li>Tracking the order have become easy with this application for both the retailers and the customers.</li> </ul> |

| *   | Novelty / Uniqueness                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Certain machine learning algorithms                          |   |
